TESTIMONIAL

Leah Gwangwa
Management Consultant
Gaborone, Botswana

Diamonds have contributed handsomely to the individual and professional that I am today.

I have received one of many scholarships from Debswana, a Botswana based diamond mining company, to study in Canada for three years. During this time the company paid for all my educational needs, accommodation, a subsistence allowance, and annual air tickets between Botswana and Canada for summer vacations. Consequently, I not only got a world-class education, but I also had the opportunity to appreciate another culture and grow as a person. This was an opportunity my parents would not have been able to afford for me.

Using this education as a stepping stone, I have built a career as a management consultant. I have been able to provide a middle-class lifestyle for myself and my family, as well as contribute to the economic well-being of other citizens of this country.

Diamonds have been very good to me, and to my family.
